Property overview

About this property

Modern, updated, and completely move-in ready, this 4-bedroom, 2.5-bath home offers a clean contemporary feel with stylish finishes throughout, plus the major added benefit of a fully paid-for home solar system—providing energy efficiency with no solar lease or payment to assume. No carpet anywhere in the home, with hard-surface flooring throughout and luxury vinyl plank extending up the staircase, across the second-floor landing and additional living space, and into all of the upstairs bedrooms. The open-concept main level creates a bright, functional layout designed for both everyday living and entertaining. The updated kitchen anchors the space with modern cabinetry, quartz countertops, a large center island, stainless steel appliances, and a walk-in pantry, opening seamlessly to the dining and main living areas. A flexible additional room on the first floor provides options for a home office, formal dining room, or additional living space. Upstairs, a spacious secondary living area/loft adds even more versatility. The primary suite features a walk-in closet and private en-suite bath, while three additional bedrooms provide plenty of room for family, guests, or workspace. The second-floor laundry adds everyday convenience. Outside, the fully fenced backyard offers privacy and room to relax, entertain, or create your own outdoor retreat, while the two-car garage provides additional storage and functionality. Conveniently located near Posner Park, AdventHealth, shopping, dining, and I-4, this home combines a sleek, ultra-modern interior, spacious floor plan, and the long-term benefit of a fully paid solar system. If you've been looking for an updated home without the projects, the carpet, or a solar payment, this one is ready to go.
