Property overview

About this property

This corner, open-bay and downtown water view villa is truly a gem to see. It offers three or four bedrooms, depending on your desired use, and features a grand living and dining area with views of water, water, water in every direction. The entire unit is light and bright, with an abundance of floor-to-ceiling windows and electric window shades throughout for effortless light control and privacy. The spacious primary bedroom and bath include a generous walk-in closet, breathtaking water views, and a convenient laundry chute that leads directly to the laundry room below. One of the three bedrooms is currently used as a den, lined with custom cabinetry—part of the cabinet wall could easily be reconfigured to create a built-in closet. An elevator provides easy access between levels. The ground floor is designed for entertaining, featuring a full bath and flexible space that can serve as an executive-style suite, complete with another bedroom and living area. This level also showcases the same stunning water views and opens to a private patio with grass and a lawn that extends right to the water's edge. The laundry room and two garages are also located on this level—both garage floors have been finished with a sleek and durable epoxy coating. The property includes a beautiful waterfront pool and plenty of auxiliary parking for guests.
