Property overview

About this property

A four-level residence in North Kenwood is rare. One with a finished Florida basement complete with a private entrance and a finished attic bonus room is a once-in-a-generation find. Reimagined from top to bottom, this 5-bedroom, 3-and-a-half-bath home offers an exceptional sense of space, character, and flexibility, beginning with its distinctive brick façade, board-and-batten siding, manicured new landscaping, and tiled front porch beneath a richly finished tongue-and-groove ceiling. Inside, vaulted ceilings and exposed beams lend architectural drama, while new luxury vinyl plank flooring, recessed lighting, carefully selected fixtures, and subtly embellished tile stair risers create a refined sense of continuity. The kitchen balances beauty with everyday function: soft-close shaker cabinetry, stainless steel appliances, a gas range, wine refrigerator, and a dedicated coffee bar framed by designer floating shelves. The primary suite is a retreat of its own, with a custom walk-in closet and an ensuite bath featuring a floating double vanity, floor-to-ceiling tile, and a generous shower with a rainfall head, handheld wand, and built-in bench. A moody, color-drenched powder room adds another memorable design moment and dares to be your favorite room in the entire residence. The finished Florida basement offers remarkable versatility for guests or multigenerational living, with its own entrance, walk-in shower, refrigerator and freezer, range, butcher-block countertops, deep sink, and soft-close cabinetry. On the fourth level, a spacious bonus room with substantial closets invites use as a playroom, creative studio, or private escape. A covered back patio completes the outdoor setting. With all-new mini splits, newer double-pane windows and Eaton electrical panel, a Rheem electric tankless water heater, and so much more, this is a singular North Kenwood offering designed for buyers who value both distinction and possibility.
